## Overview

Actively looking for new opportunities in software development as a full-stack developer. Passionate about coding and eager to learn.

## Education

### **Georgia Tech Coding Bootcamp**, Atlanta, GA - (August 2019)

- Browser Based Technologies - HTML, CSS, JavaScript, jQuery, and Bootstrap
- Databases - MySQL and MongoDB
- Server Side Development - Node.js, Express, and MERN Stack
- Deployment and IDE's - Heroku, Git and Visual Studio
- C# (ASP.Net)
- Quality Assurance (Writing Tests)

### **Grady EMS Academy**, Atlanta, GA - (February 2016)

- Advanced and Basic Emergency Medical Technician Training

### **Emory University**, Atlanta, GA - (December 2013)

- Bachelor of Science in Neuroscience and Behavioral Biology; Pre-Medicine

## Employment and Activities

### **Grady Health System**, Atlanta, GA - (May 2016 - Present)

#### *Advanced Emergency Medical Technician*

- Provides emergency care to patients requiring EMS procedures in accordance with established medical protocols.
- Provides safe and effective transportation of patients to and from predetermined locations.

### **Ivy Falls Family Medicine**, Duluth, GA (August 2015 – December 2015)

- Shadowed Dr. Karen Duvall observing Osteopathic Manipulative Treatments.

### **Emory University School of Medicine**, Atlanta, GA - (May 2013- January 2014)

#### *Urology Research Assistant*

- Independently analyzed over 200 electronic medical records of patients seen at Grady Memorial Hospital.
- Extracted pertinent clinical information from charts via EPIC software to formulate research datasets.
- Communicated project status, progress and final results to Research Head and Research Teams on a biweekly basis.

### **Marcus Autism Center, Children's Healthcare of Atlanta**, Atlanta, GA (January 2012- August 2012)

#### *Assistant Clinical Researcher*

- Assisted with patient examinations under pediatrician's supervision.
- Generated patient charts by compiling clinical documentation and conducted follow-up reviews.
- Collaborated with a multidisciplinary team of professionals evaluating patient diagnoses.

## Achievements

- "The Double Helix: Rosalind Franklin's Contribution", 4<sup>th</sup> Annual Student Research Symposium, Oxford College, April 8, 2011. Paper was selected as one of the 17 to present at the conference.
- Oxford College Women's Tennis 1<sup>st</sup> National Championship 2011 and Oxford College 1<sup>st</sup> doubles National Championship 2011 winner. Awarded "Most Improved Player" April, 2011. Received "All-American" 2011.

## Skills

- Full-stack developer technologies - C# (ASP.Net), HTML, CSS, JavaScript, jQuery, Bootstrap, MySQL, MongoDB, Node.js, Express, MERN Stack, Visual Studio, Heroku, and Git.
- Proficiency in EPIC software, Microsoft Word, PowerPoint, and Excel.
- BLS, NREMT-Advanced certified.
